

The following items will be used in the judging process:

- Invention information provided through your application.
- A 4-minute YouTube video that features:
  - Each team members introducing themselves
  - The story of how you recognized the problem you solved, what's the need, who would use your invention, would they buy it
  - Description of the invention you built to solve the problem
  - Challenges you overcame to arrive at your final design
  - Explanation or demonstration of the prototype (need not be working)
  - Video cannot be "produced;" it is expected to be a continuous 4-minute video. It is ok to be prompted by a parent with questions during the video. (limit 50MB per file)

Notes:

- DO NOT mark your video as "Private" or our judges will not be able to access it
- You will copy and paste your YouTube video link to your application/registration form in the appropriate field
